TECHNICAL DATA SHEET N. 12

IDENTIFICATION NAME:	PV/1
PRODUCT:	Confectionery rolls
COLOUR:	NEUTRAL (transparent) – BLUSHED
SURFACE:	BRIGHT

CHARACTERISTICS	RULES	VALUE	UNIT OF MEASUREMENT	NOTES
THICKNESS	DIN 53370-UNI 5202.06	100	µm	(tol. ± 10%)
DENSITY	DIN 53478-ASTM D-792	1,35	g/cm ³	tol. ± 0,02g/cm ³
IMPACT RESISTANCE	DIN 53453	≥ 300	Kj/m ²	
ROLLS WIDTH	---	20+1050	mm.	
ROLLS LENGHT	---	200	m.	
INT. ROLLS DIAM.	---	40	mm.	
EXT. ROLLS DIAM.	---	170	mm.	tol. ± 10 mm.
STORAGE				Keep in no dusty storerooms. Don't expose to sunlight storage temperature between +15 and 30° C.
PACKING				Rolls singular packing with thermo retractable film. Keep on pallets

Food fitness statement

Film base composition: PolyVinyl Chlorure added with compounds which are destined to food contact (Ministerial circular n. 84 on 28/12/77 and following updating). All compounds are included on attachment n. II of the Ministerial decree on 21/3/1973 and following updating. VCM content is lesser than 1 p.p.m. (EEC 78/142 – EEC 80/776) Without plastic material.

Statement of Legislative Decree Conformity n° 22 on 06/02/1997

With reference and in compliance with the above Decree, we declare that, concerning heavy material level allowed in packing material, the Mercury, Lead, Cadmium, Chromium levels are lesser than recommended limit.
