Subject: **Declaration of compliance with legislation on food contact materials.**

We hereby declare that our items in polystyrene foam destined to contact with foodstuffs indentified as

White and Coloured XPS Tray®

Are manufactured in compliance with the following EU legislation:

- Regulation 1935/2004/CE;
- Regulation 1895/2005/CE;
- Regulation 2023/2006/CE;
- Regulation 10/2011/CE;

And in compliance with the following Italian legislation:

- D.P.R. 777/82 and its subsequent amendments;
- D.M. 21/03/1973 and its subsequent amendments.

The aforementioned trays are produced with the following raw materials:

- Polystyrene;
- Nucleant additives.
- Coloring masterbatch

Our product contains the following substances subjected to legislative restrictions:

Substance	REF	CAS	LMS
Zinco Stearate	24550	557-05-1	25 mg/kg
Difosfonito di tetrakis(2,4-di-terz-butilfenil)-4,4'-bifenililene	92560		18 mg/kg

and respects both the global migration limit and specific restrictions in the following testing conditions:

<i>Simulator:</i> A for prolonged contact. <i>Time and temperature:</i> 10days/40°C	<i>Simulator:</i> D2 (Oil) for prolonged contact. <i>Time and temperature:</i> 10days/40°C
--	---

The test at 10 days / 40 ° C, covering all of the durations of storage in conditions of refrigeration and freezing, including heating up to 70 ° C for a duration of up to 2 hours, or heating up to 100 ° C for a duration of 15 minutes.

The global migration limit, and the other specific restrictions at which monomers and additives used to produce our material can be subjected, are respected in the aforementioned use conditions.

This statement is supported by analytical testing realized in compliance with the European Regulation 10/2011 and with the D.M. 21/03/1973; the results have also been confirmed by calculations of the substances subjected to migration limit based on the assumption that 1 kg. of food is in contact with 6 dm² of packaging material.
